

Welcome to the support page for Tanzania Institute of Bankers learning Management System

This page provides basic information on how you can login and access the system as well as understand its key tools and features.

The system has been customized from Moodle which is an open source virtual learning environment and it is hosted in version 2.8.

The entry page of the system prompts the user to provide his/her credentials. Your administrator will provide you with username and default password that will enable you to gain access to the system. Once you have been logged in, you will need to change your password for privacy and security purposes.

If it happens you have forgotten either your username or password, you can click the 'forget your username/password' link to get details on how you can retrieve your credentials. Furthermore you can click the support icon to contact your administrator.

Your Moodle homepage will contain three separate columns; the informative section on the left is for navigation around the system. The centre column provides front page bulletins and course categories that are available for your use. The right column hosts supporting tools other features such a calendar and a feed for upcoming events.

Further information and detailed manual on how to use the system is available on the homepage.
